

UNIT PROFILE

Unit: 94th Airlift Wing, Dobbins Air Reserve Base, Georgia (unit-equipped)

Mission: The mission of the 94th Airlift Wing is three fold. The primary mission is to train C-130H aircrews for the United States Air Force (active duty and reserve component). The second mission is to maintain combat ready units to deploy on short notice to support contingencies anywhere in the world. Finally the 94th is the host organization for supporting all agencies and tenants at Dobbins Air Reserve Base. To accomplish this, the wing recruits, organizes, and trains Air Force Reservists for active duty in time of war, national emergency, or contingency tasking. The aircrews we train are capable of using the C-130H aircraft to deliver cargo and personnel into and out of airports as minimal as dirt runways to international airports. They can also deliver paratroopers and equipment to the point of conflict by airdrop.

Subordinate Units: The 94th Airlift Wing is made up of 11 squadrons and 4 flights: 94th Mission Support Squadron, 94th Logistics Readiness Squadron, 80th Aerial Port Squadron, 94th Aeromedical Evacuation Squadron, 94th Civil Engineer Squadron, 94th Aeromedical Staging Squadron, 94th Maintenance Squadron, 94th Operations Support Squadron, 700th Airlift Squadron, 94th Security Forces Squadron, 94th Services Squadron, 94th Airlift Control Flight, 94th Communications Flight, 94th Maintenance Operations Flight and 94th Aircraft Maintenance Flight.

Type of Aircraft Flown: C-130H Hercules /8 Assigned

Major Operations: When called to active duty, Air Education and Training Command, Air Mobility Command, Air Combat Command, and Air Force Reserve Command will each gain separate elements of the wing. The 94th personnel have been involved in every major national crisis including Operation Noble Eagle, Iraqi Freedom and Enduring Freedom, Desert Shield/Storm; from Provide Promise (Bosnian Airlift) through Hurricanes Katrina and Rita recovery operations to Shining Hope (Kosovo Airlift). This has been done totally with volunteers, who take time from their civilian jobs and families to support the nation.

The 94th Airlift Wing is the host organization at Dobbins Air Reserve Base and is responsible for providing security, civil engineering, fire protection, air traffic control, and numerous other services to the base and tenant organizations assigned to the base. This includes the maintenance of the airfield, which is used by Lockheed-Martin/Air Force Plant #6, as well as other Dobbins tenants, such as Air National Guard, Army National Guard, Army Reserve and Marine Corps Reserve. More than 70,000 flight operations occur annually making the Dobbins complex an extremely active facility with diverse air traffic operations from all branches of the military and other U.S. government agencies. This air traffic environment takes place within the area of the busiest airport in the world (Hartsfield-Jackson International Airport) and is as busy as many medium-sized commercial airports.
